

BROADBAND FOR BUSINESS

BUSINESS OPPORTUNITY

HUGHES, global leader in satellite communications and managed network services for small and medium enterprises invites you to join its proliferating network as **Business Partner**.

HUGHESNet “**Broadband For Business**” for **Small and Medium Enterprises (SME)**, delivered through **Satellite Medium (VSAT)** enjoys extensive reach across remotest of locations and terrains which are inaccessible by DSL or any other alternate medium of connectivity. Reliability and security, two major concerns in business communication today are a forte of HughesNet “**Broadband For Business**”. Providing always-on and everywhere available broadband services, Hughes has gained popularity among the enterprise class customers.

HughesNet **Broadband For Business** provides the highest possible network uptime (>99.5%) to businesses and is the only enterprise class service with a unique blend of speed, reliability and security.

Hughes Communications India Ltd is a part of Hughes Network Systems, USA, a worldwide leader in enterprise class networking services. Hughes today leads global markets with around 55% share with presence in 133 countries.

Partnering with a global leader can make you stand at the forefront of the broadband revolution in India where more than 5 lac SMEs wait to get connected through a reliable medium.

We provide you with tools to sell HughesNet, including sales training, pre-approved marketing material, flexible inventory solutions and much more.

As a Business Partner, you need to be dedicated towards business, preferably experience of selling IT products or telecom solutions. An ability to invest Rs 2-3 lacs, with a sales and technical support team for installation and maintenance would be desired.
